## SECTION 1.0. PROGRAMS

#### 1.1 OVERVIEW

The LoanStream ONE program guidelines are structured to guide towards making common sense lending decisions on loans to borrowers who may have limited access to credit. These borrower's situations generally require the underwriter to consider alternative forms of documenting income and/or compensating factors which offset risk indicated by a recent credit event or elevated debt-to-income ratio. The borrower's ability to repay must be proven in all instances.

LoanStream Mortgage has a zero-tolerance policy for fraud. LoanStream follows the current established fraud and identity procedures on every loan to prevent and detect fraud (including, but not limited to, Social Security number verification, Verification of Assets, Verbal Verifications of Employment, processing of 4506-C(Ts), Fraud Guard, etc.). Loans containing misrepresentations will be immediately declined and forwarded to our Legal/QC Team for further review/action(s).

If IPCs are present, both the appraised value and sales price must be reduced by the concession amount that exceeds the limits referenced below. IPC includes funds contributed by the property seller, builder, real estate agent/broker, mortgage lender, or their affiliates, or any other party with an interest in the Real-Estate transaction held to the following.

Impound accounts are optional on Investment properties and not required.

**NOTE:** Refer to rate sheet for any costs associated with buyout.

## 1.9 SECONDARY FINANCING

Secondary financing must be institutional. Underwriters must employ reasonable underwriting judgment to determine whether the borrower has applied for another credit transaction secured by the same dwelling. Existing secondary financing must be subordinated and recorded or refinanced. HELOC CLTV must be calculated at the maximum available line amount unless the borrower can provide documentation the line of credit is past its draw period.

Seller Carry Backs are not allowed. Refer to LSM NanO (Non-QM) Matrix for additional restrictions.

## 1.15 ABILITY TO REPAY/QUALIFIED MORTGAGE RULE

#### 1.15.1 TRID (NON-BUSINESS PURPOSE)

Loans may be designated as Non-Qualified or Qualified Loans. Both safe harbor and rebuttable presumption standards apply to these designations. Loans are subject to general ability-to-repay (ATR) standards (12 C.F.R 1023.43(c)) and require the lender to make a reasonable, good-faith determination that the consumer has a reasonable ability to repay the loan. The following eight underwriting factors are considered when making this determination:

- I. Current or reasonably expected income or assets
- II. Current employment status
- III. The monthly payment on the covered transaction
- IV. The monthly payment on any simultaneous loan
- V. The monthly payment for mortgage-related obligations
- VI. Current debt obligations, alimony and child support
- VII. The monthly debt-to-income ratio or residual income
- VIII. Credit history

#### 1.15.2 NON-TRID (BUSINESS PURPOSE)

Business Purpose Loans are exempt from ATR/QM Restrictions & Rules.

#### 1.16 INTEREST CREDIT

Loans closed within the first 7 days of the month may reflect an interest credit to the borrower.

#### 1.17 STATE AND FEDERAL HIGH-COST LOANS

State and Federal High-Cost Loans are not allowed. The allowable points and fees threshold is the more restrictive of state law, as applicable, or 5.00%

#### 1.18 PREPAYMENT PENALTY

## 1.18.1 OWNER OCCUPIED, SECOND HOMES AND INVESTMENT PROPERTIES WHERE CASH-OUT IS USED FOR CONSUMER PURPOSE

#### 1.18.2 INVESTMENT PROPERTIES BUSINESS PURPOSE

• Prepayment penalties are eligible for investment properties only where permitted by applicable state law and regulations. Prepayment penalties are not allowed on primary residence or second home transactions.

## 1.19.2 NON-TRID (BUSINESS PURPOSE)

#### Rate and Term Refinance:

• The property must be delisted at least one day prior to application date

## Cash-out Refinance (One of the Following)

- The property must be delisted for at least <u>180 days</u> (6 Months), measured from the listing expiration date to the new loan application date
- Properties delisted less than 180 days are allowed with the following requirements:
  - o Property must be leased with current lease
    - Fully executed lease and receipt of security deposit into borrower's account to be provided
  - o Three (3) months reserves required, cash out proceeds cannot be used as reserves
  - o Minimum one year prepayment penalty

  - o Maximum LTV is the lower of 70% or program requirement

#### 1.20 ASSUMABILITY

Adjustable-Rate Notes may be assumable based upon the Note. In general, Fannie Mae Notes contain an assumable clause. If the Note shows an assumable clause, the verbiage in the Note and Closing Disclosure must match.

Fixed-Rate Notes are not assumable.

#### 1.21 HOUSING COUNSELING

All borrowers who are paying off an existing reverse mortgage with a new first (forward) mortgage must complete a homeownership education course provided by a HUD-approved agency. Proof of course completion is required prior to closing.

#### 1.22 PROPERTY INSURANCE

## 1.22.1 COVERAGE REQUIREMENTS

Property insurance for loans must protect against loss or damage from fire and other hazards covered by the standard extended coverage endorsement. The coverage must provide for claims to be settled on a replacement cost basis. Extended coverage must include, at a minimum, wind, civil commotion (including riots), smoke, hail, and damages caused by aircraft, vehicle, or explosion.

Policies that limit or exclude from coverage (in whole or in part) windstorm, hurricane, hail damages, or any other perils that normally are included under an extended coverage endorsement are not acceptable.

Borrowers may not obtain property insurance policies that include such limitations or exclusions unless they are able to obtain a separate policy or endorsement from another commercial insurer that provides adequate coverage for the limited or excluded peril or from an insurance pool that the state has established to cover the limitations or exclusions.

Additional insurance requirements apply to properties with solar panels that are leased from or owned by a third party under a power purchase agreement or other similar arrangement. Please refer to Fannie Mae Selling Guide B7-03-02 for more detailed information.

For insurance not addressed in this section, such as condo, walls-in, etc., defer to Fannie Mae requirement Section B.7-3 Property and Flood Insurance for requirements for property and flood insurance, including coverage types, amounts and evidence.

The insurance coverage must reflect one of the following:

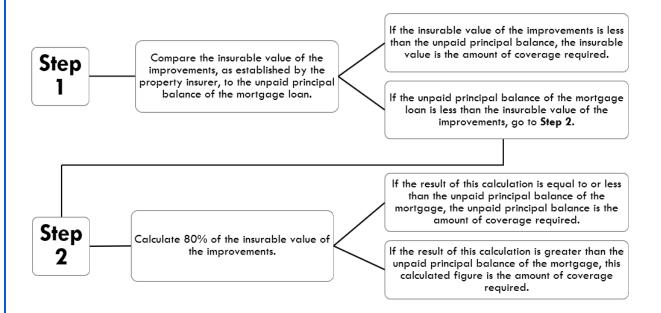

- 100% of the insurable value of the improvements, as established by the property insurer; or
- Determining the Amount of Required Property Insurance

The following table describes how to calculate the amount of required property insurance coverage:

| STEP | DESCRIPTION   |
|------|---|
| 1    | Compare the insurable value of the improvements as established by the property insurer to the unpaid principal balance of the mortgage loan.                              |
| 1A   | If the insurable value of the improvements is less than the unpaid principal balance, the insurable value is the amount of coverage required.                             |
| 1B   | If the unpaid principal balance of the mortgage loan is less than the insurable value of the improvements, go to Step 2.  |
| 2    | Calculate 80% of the insurable value of the improvements.   |
| 2A   | If the result of this calculation is equal to or less than the unpaid principal balance of the mortgage, the unpaid principal balance is the amount of coverage required. |
| 2B   | If the result of this calculation is greater than the unpaid principal balance of the mortgage, this calculated figure is the amount of coverage required.                |

## **Examples**

| Category                 | PROPERTY A | PROPERTY B | PROPERTY C |
|--------------------------|------------|------------|------------|
| Insurable Value          | \$90,000   | \$100,000  | \$100,000  |
| Unpaid Principal Balance | \$95,000   | \$ 90,000  | \$ 75,000  |
| 80% Insurable Value      | _          | \$ 80,000  | \$ 80,000  |
| Required Coverage        | \$90,000   | \$ 90,000  | \$ 80,000  |
| Calculation Method       | Step 1A    | Step 2A    | Step 2B    |

## SECTION 2.0. PROPERTY

#### 2.1 APPRAISAL REQUIREMENTS

LoanStream may, at its discretion, examine all valuation reports, including review products, to verify the accuracy of the subject property's value. If the value is deemed unsupported, LoanStream reserves the right to adopt a lower value determined through an internal desk review of the appraisal(s) and review product.

Full Interior/ Exterior appraisal required. Fannie Mae/Freddie Mac Forms 1004/70, 1025/72, 1073/465 or 2090 must be used. The appraisal must be ordered through an Appraisal Management Company that complies with Appraiser Independence Requirements (AIR) or, for approved lenders, through their AIR compliant appraiser panel management process. See your Correspondent Sales Team for panel management approval requirements. The licensed appraiser must complete an interior inspection of the subject property.

The Appraisal should be dated no more than 120 days prior to the Note Date. After a 120-day period, a re-certification of value is acceptable up to 180-days. After 180 days, a new appraisal report is required.

- Not eligible for approval:
  - o Properties for which the appraisal indicates condition ratings of C5 or C6 or a quality rating of Q6, each as determined under the Uniform Appraisal Dataset (UAD) guidelines
    - LSM will consider if issue has been corrected prior to loan funding with proper documentation
- All properties must:
  - o Be improved real property
  - o Be accessible and available for year-around residential use
  - o Represent the highest and best use of the property
  - o Not contain any health and safety issues
- For DSCR 5-8 Unit Residential program, refer to <u>DSCR 5-8 Appraisal Requirements</u> for specific program requirements

## 2.1.1 SECOND APPRAISAL

Second Appraisal is required when:

- Loan amount exceeds \$1,500,000
  - o Appraisals must be ordered through an AIR compliant Appraisal Management Company (AMC)
  - o ARR (Appraisal Risk Review) is required on the lower valued appraisal regardless of the SSR score
- The transaction is an HPML (Higher-Priced Mortgage Loan) and a flip as defined in the Property Flipping HPML Appraisal Rule section of this guide
- As required under the Appraisal Review Products section of this guide

When a second appraisal is required, the "Appraised Value" will be the lower of the two appraisals. The second appraisal must be from a different Appraisal Management Company (AMC)/appraiser than the first appraisal.

Underwriter has discretion to accept differences between the two appraisals, as each appraiser may appraise a property differently, for example one appraiser may call a room an office when the other appraiser may call the same room a bedroom or one appraisal may state that there is 1000 sq ft. and the other appraiser measured out 980 sq ft. The Underwriter needs to assure that the qualifying value used to calculate the final LTV/CLTV is supported.

#### 2.1.2 TRANSFER OF APPRAISAL

To transfer an appraisal, a transfer letter must be executed by the Lender that ordered the appraisal and must be signed by an authorized member of the company. The letter should include the following:

- Prepared on the Letterhead of the original Lender
- Current Date
- Borrower Name
- Property Address
- Statement that the appraisal was prepared in compliance of Appraisal Independence Requirements
- Signed by an Authorized Representative
- Where more than one appraisal is required at least one appraisal must be ordered from an AIR compliant Appraisal Management Company (AMC)

• Transferred Appraisals are not allowed on the DSCR 5-8 Unit Residential program

## 2.2 APPRAISAL REVIEW REQUIREMENTS

#### 2.2.1 APPRAISAL REVIEW PRODUCTS

An appraisal review product is required on every loan file for loan amounts ≤ \$1,500,000 unless the SSR Report shows a Fannie Mae Collateral Underwriter Score of 2.5 or less. Refer to <u>Second Appraisal</u> for loan amounts > \$1,500,000 appraisal review product requirements. The options for review products are below:

For DSCR 5-8 Unit Residential program, refer to <u>DSCR 5-8 Appraisal Requirements</u> for specific appraisal review requirements

## Submission Summary Report (SSR)

• Not available for multi-unit properties

#### **Collateral Underwriter**

- The appraisal report must be submitted to the UCDP Application and SSR reports should be generated
- Scoring:
  - o If a CU score is present (will not show for units) and it is at 2.5 or below we may proceed without an enhanced desk review product unless required by underwriting
  - o If the CU score is above 2.5, there is no score or the property is a 2-4 Unit, an enhanced desk review is required

#### **Enhanced Desk Review**

- Enhanced desk review products:
  - o ARR (Appraisal Risk Review) from ProTeck/Stewart
  - o CCA (Consolidated Collateral Analysis) from Consolidated Analytics
  - o CDA from Collateral Desktop Analysis from Clear Capital
- A field review, drive by appraisal (Form number 2055) or second appraisal from an AIR compliant AMC is acceptable
- The field review or 2nd appraisal may not be from the same company or appraiser as the original report

If the Appraisal Review Product reflects a value more than 10% below the appraised value or cannot provide a validation, the next option in the review waterfall must be followed:

- The next option is either a field review or second appraisal, and both must be from a different appraisal company and appraiser than the original appraisal; or
- If variance is between 10.01% to 15%, using the lower value without an additional report, is acceptable

## 2.2.2 MINIMUM SQUARE FOOTAGE

Refer to LSM NanO (Non-OM) Matrix for FICO, Grades, LTVs, and all other restrictions.

#### 2.2.3 ACCESSORY DWELLING UNITS

An Accessory Dwelling Unit (ADU) is generally an additional living area independent of the primary dwelling that may have been added to, created within, or detached from the primary dwelling. ADUs must be subordinate in size to the subject

property, must be on the same parcel and may be either site constructed or modular. When giving value if modular, the dwelling must be on a permanent foundation.

When reporting the living area of an ADU, it should not be included with the Gross Living Area calculation of the primary dwelling. It should be reported and adjusted for on a separate line in the grid, unless the ADU is contained within or part of the primary dwelling with interior access and above grade. If a standalone structure does not meet the ADU minimum requirements, it should be treated as any other ancillary structure and included as a separate line item in the sales comparison approach then adjusted based on its contributory value to the subject property.

Whether a property is defined as a one-unit property with an ADU or a two- to four-unit property will be based on the characteristics of the property, which may include, but are not limited to, the existence of separate utility meter(s), a unique postal address, and whether the unit can be legally rented. The appraiser must determine compliance with this definition as part of the analysis in the Highest and Best Use section of the appraisal. When there is an ADU, the appraisal report must include a description of the ADU and analysis of any effect it has on the value or marketability of the subject property. The appraisal report must demonstrate that the improvements are acceptable for the market. An aged-settled sale will qualify as a comparable, and an active listing or under contract sale will qualify as a supplemental exhibit to show marketability.

### Examples of ADUs Include (but are not limited to)

- Living area over a garage
- Living area in a basement, it must have outside access
- Small addition to the primary dwelling with outside access
- A modular home (legally classified as real property)

## Zoning for an ADU:

If it is determined that the property contains an ADU that is not allowed under zoning (where an ADU is not allowed under any circumstance), the property is eligible under the following additional conditions:

- The lender/borrower confirms that the existence will not jeopardize any future property insurance claim that might need to be filed for the property
- The illegal use conforms to the subject neighborhood and to the market
- The property is appraised based upon its current use
- The appraisal report states that the improvements represent a use that does not comply with zoning ("illegal" use)

The appraisal report demonstrates that the improvements are typical for the market through an analysis of at least two comparable sales with the same non-compliant zoning use. Aged, settled sale(s) with the same non-compliant zoning use are acceptable if recent sales are not available. At a minimum, the appraisal report must include a total of three settled sales.

#### Calculating Income from ADU:

See <u>Income Section</u> for income qualifying on ADU Income.

## 2.2.4 RURAL PROPERTY

A property could be classified as rural if the following conditions exist:

- The property is classified as rural by the appraiser
- Two of the three comparable properties are more than 5-miles from the subject property
- Less than 25% of the surrounding area is developed

The Underwriter has the discretion to determine if the subject property is a rural property by scrutinizing some of these following characteristics:

- Property is located on a gravel road
- The majority of comparable properties are more than 5 miles from the subject property
- Less than 25% of the surrounding area is developed
- Distance to schools and amenities is greater than 25 miles
- Surrounding area is Forest
- Surrounding area is Agricultural
- Does not have adequate utilities available in service
- Property located in remote, isolated area

## 2.2.5 PERSONAL PROPERTY

Any personal property transferred with a property sale must be deemed to have zero transfer value, as indicated by the sales contract and/or the appraisal. If any value is associated with the personal property, the sales price and appraised value must be reduced by the personal property value for purposes of calculating the LTV/CLTV/HCLTV.

## 2.2.6 ESCROW HOLDBACKS

Escrow holdbacks are not allowed. Any repair or maintenance required per the appraiser must be completed prior to closing.

## 2.2.7 MIXED USE PROPERTIES

#### Owner Occupied & Second Home Occupancy

Mixed use properties are allowed per Fannie Mae Guidelines.

(Examples: Business use in addition to residential use, such as property with space set aside for a day care facility, a beauty or barber shop, or a doctor's office):

- The property must be a one-unit dwelling that the borrower occupies as a principal residence or 2<sup>nd</sup> Home
- The borrower must be both the owner and the operator of the business
- The property must be primarily residential in nature
- The dwelling may not be modified in a manner that has an adverse impact on its marketability as a residential property

The property must meet appraisal requirements for mixed use properties under Fannie Mae Section B4-1.4-07. Appraisal must indicate:

- A detailed description of the mixed-use characteristics of the subject property
- That the mixed use of the property is a legal, permissible use of the property under the local zoning requirements
- Any adverse impact on marketability and market resistance to the commercial use of the property
- Market value of the property based on the residential characteristics, rather than of the business use or any special business-use modifications that were made

#### 2.2.8 INVESTMENT MIXED USE PROPERTIES

Not allowed

- Sober Living Homes are allowed in California per recent California Supreme Court Decisions and Legal Opinions. State law reinforces federal law prohibiting housing discrimination against persons with disabilities, including alcoholics and addicts in recovery. Under The Fair Housing Act (1988), The American with Disabilities Act (1990), Fair Employment and Housing Act (1959), Government Code 65008 (a), (b) and (d)(2), and under the Code of Federal Regulations §100.201, it requires the states to abide by Federal Regulations and allows for the placement of these individuals in community settings rather than institutions. This section defines "handicapped" status protected by FHA, Fannie Mae, and ADA to include recovering alcoholics and addicts and prohibits mortgage lenders from discriminating from homeowner's that run such facilities. We, therefore, will allow for the financing of single and multi-family properties with the following restrictions:
  - 1007 market rents will be used for qualifying purposes (lease agreements between multiple parties will not be considered or used)
  - No modifications to the home unless allowed under the ADA are allowed
- o Sober Living Homes outside the state of California are not permitted

Refer to LSM NanO (Non-OM) Matrix for FICO, Grades, LTVs, and all other restrictions.

#### 2.2.9 PROPERTIES WITH SOLAR PANELS

The ownership and debt financing structure commonly found with solar panels are essential to determining whether panels are personal property of the homeowner, third party owned or a fixture to the real estate. Common ownership or financing structures include:

- Borrower owned panels
- Financed solar panels where the panels serve as collateral for the debt separate from any existing mortgage
- Lease agreements/power purchase agreements

Properties with solar panels may be eligible. Due diligence to determine ownership and any financing structure of the subject property's solar panels is needed to determine initially if the property with solar panels is eligible and subsequently correctly underwrite the loan.

Underwriters are to ensure all the following:

- Borrower's credit report is reviewed for solar-related debt and all solar-related documentation provided
- Title report is reviewed to determine if the related debt is reflected in the land records associated with the subject property
- Appraiser has accurate information about the ownership structure of the solar panels
- Appraisal appropriately addresses any impact to the property's value
  - o Any contributory value for owned or financed solar panels must be noted in the Improvements Section of the Appraisal Report
- Where solar panels are eligible the property maintains access to an alternate source of electric power that meets community standards
  - o If a full appraisal is required, the appraiser is to comment if the property is connected to a traditional electrical power source.
  - o If a full appraisal is not required, other alternative documentation, such as an electric bill, evidencing the property is connected to a traditional electrical power source to be provided

If insufficient documentation is not available and the ownership status is unclear, no value for the panels may be attributed to the property value on the appraisal unless a UCC "personal property" search is provided and confirms the solar panels are not claimed as collateral by any non-mortgage lender.

A UCC financing statement that covers personal property and is not intended as a fixture filing\* must be filed in the office identified in the relevant state's adopted version of the UCC.

\* A fixture filing is a UCC-1 financing statement authorized and made in accordance with the UCC adopted by each state in which the related real property is located. It covers property that is, or will be, affixed to improvements such as real property. It contains both a description of the collateral that is, or is to be, affixed to that property, and a description of the real property. It is filed in the same office that mortgages are recorded under the law of the state in which the real property is located. This filing in the land records provides notice to third parties, including title insurance companies, of the existence and perfection of a security interest in the fixture. If properly filed, the security interest in the described fixture has priority over the lien of a subsequently recorded mortgage.

The sections below identify the additional specific requirements that must be followed based on the ownership and financing structure.

## Free and Clear or Included in the Home Purchase

Solar panels that were a cash purchase and owned free and clear without outstanding debt or were included in the home purchase price and secured by the existing first mortgage.

- Properties with solar panels that meet the above definition are eligible and standard requirements must be followed (appraisal, insurance and title).
- Appraiser to include the solar panels in the value of the property (based on standard appraisal requirements)

## Financed and Collateralized (UCC on Title)

Solar panels were purchased with financing. The solar panels are collateral for the separate debt used to purchase the panels and a UCC fixtured filing has been filed for the panel as evidenced on the title report.

Properties with solar panels that meet the above definition are eligible when complying with the following requirements:

- Credit report, title report, appraisal (if applicable) and related promissory note and security agreement that reflect the terms of the secure loan to be obtained and reviewed
- Appraiser to include the solar panels in the value of the property (based on standard appraisal requirements) as long as the documents provided evidence the panels cannot be repossessed for default on the financing terms,
- Debt obligation to be included in the debt-to-income ratio (DTI) calculation and LTV/CLTV because a UCC fixture filing is of record
- The UCC filing must be subordinated with one of the following:
  - o Subordination agreement
  - o UCC termination
    - Debt obligation must be included in the DTI and LTV/CLTV unless evidenced the debt has been paid off in full (UCC termination is not evidence the debt has been paid in full.)
- CLTA endorsement 150.06 is not allowed in lieu of a subordination agreement or UCC termination

#### Financed and Collateralized (UCC not on Title)

The solar panels were purchased with financing and treated as personal property not affixed to the home. The UCC filing does not appear on the title report.

Properties with solar panels that meet the above definition are eligible when complying with the following requirements:

• Review documentation such as the credit report, title report, UCC financing statement, related promissory note or

security agreement to confirm the terms of the secured loan

- Debt obligation to be included in the debt-to-income (DTI) calculation
- Confirm the appraiser did not include contributory value of the solar panels toward the appraised value
- The loan secured by the solar panels is not to be included in the LTV/CLTV ratio
- If a previously filed UCC was temporarily removed from title through a UCC termination, evidence must be provided that the UCC was paid in full
  - o If the financed balance is not paid it full it must be included in the LTV/CLTV

Note: a Notice of Independent Solar Energy Producer Contract on title is not to be treated as a UCC fixture filing

## Financed with a PACE loan

Solar panels financed with a PACE loan paid through an assessment in their annual property tax bill.

- Properties with solar panels financed with a PACE loan are ineligible unless paid in full at or prior to closing
- If the property tax statement indicates a PACE loan the outstanding loan must be paid in full prior to or at closing
  - o Proceeds from the second lien may be used to pay off the existing PACE loan

Note: In some cases, PACE loans are also referred to as HERO loans and must adhere to PACE loan requirements.

## Leased or Covered by a Power Purchase Agreement

Solar panels are leased from or owned by a third party under a power purchase agreement or similar lease arrangement.

Properties with solar panels that meet the above definition are eligible when complying with the following requirements:

- Lease or power purchase agreement to be obtained and reviewed
- Monthly payment must be included in the debt-to-income (DTI) calculation unless the lease/agreement is structured to:
  - o Provide delivery of a specific amount of energy at a fixed payment during a given period, AND
  - o Have a production guarantee that compensates for the borrower on a prorated basis in the event the solar panels fail to meet the energy output required for in the lease/agreement for that period
- Payments under the power purchase agreements where the payment is calculated solely based on the energy produced may be excluded from the DTI calculation
- Confirm the appraiser did not include value of the solar panels in the appraised value
- Value of the solar panels must not be included in the LTV/CLTV even if a precautionary UCC filing is recorded because the documented lease or power purchase agreement status takes priority
  - o A "precautionary" UCC filing is one that lessors may file to put third parties on notice of their claimed ownership interest in the property described within the filing and is allowed when meeting all of the following:
    - The only property described in the UCC filing as collateral is the solar equipment covered by the lease or power purchase agreement and not the underlying land
    - Loan is underwritten in accordance with "Leased or Covered by a Power Purchase Agreement" section of the guidelines
- The lease or power purchase agreement must indicate the following:
  - o Any damage that occurs as a result of installation, malfunction, manufacturing defect or the removal of the solar panels is the responsibility of the owner of the equipment and the owner must be obligated to repair the damage and return the improvements to their original or prior condition (such as sound and watertight conditions that are architecturally consistent with the home)

- The owner of the solar panels must agree not to be named as insured and/or loss payee on the property owner's property insurance policy covering the residential structure on which the panels are attached.
  - Acceptable alternative documentation is a current copy of the property owner's property insurance policy verifying the owner of the solar panels is not currently named as the insured or loss payee.
- In the event of a foreclosure, the lender or assignee has the right to:
  - o Terminate the lease/agreement and require the third-party to remove the equipment, or
  - o Transfer, without payment of any transfer or similar fee, the beneficiary of the borrower's lease/agreement with the third party, or
  - o Enter into a new lease/agreement with the third party under terms no less favorable than the prior owner
  - o NOTE: If the required verbiage above is not present in the original lease/agreement a fully executed addendum to the lease/agreement identifying the requirements is acceptable
- If a UCC filing is on record and will remain, the solar title endorsement is required

## 2.7.5 INTER VIVOS REVOCABLE TRUST

An Inter Vivos revocable trust is permitted when the trust has an ownership interest in the subject property for all transaction types. The following requirements should be followed. Not all requirements may be addressed here; Fannie Mae requirements should be followed where these guides are silent.

The trust must be established by one or more natural persons, solely or jointly. The primary beneficiary of the trust must be the individual(s) establishing the trust. The trust must become effective during the lifetime of the person establishing the trust. If the trust is established jointly, there may be more than one primary beneficiary as long as the income or assets of at least one of the individuals establishing the trust will be used to qualify for the mortgage.

The trustee must include either:

• The individual establishing the trust (or at least one of the individuals, if 2 or more); or

• An institutional trustee that customarily performs trust functions in and is authorized to act as trustee under the laws of the applicable state.

The trustee must have the power to hold the title and mortgage the property. This must be specified in the trust. One or more of the parties establishing the trust must use personal income or assets to qualify for the mortgage.

The following documentation is required:

- The trust was validly created and is duly existing under applicable law
- Attorney's Opinion Letter from the borrower's attorney or Certificate of Trust verifying all the following:
  - o The trust is revocable.
  - o The borrower is the settler of the trust and the beneficiary of the trust,
  - o The trust assets may be used as collateral for a loan,
  - o The trustee is:
    - Duly qualified under applicable law to serve as trustee,
    - The borrower,
    - The settler,
    - Fully authorized under the trust documents and applicable law to pledge, or otherwise encumber the trust assets

In lieu of the above, a complete copy of the trust documents certified by the borrower to be accurate, or a copy of the abstract or summary for jurisdictions that require a lender to review and rely on an abstract or summary of trust documents instead of the trust agreements can be provided in the loan file. The Attorney needs to also verify that the trust has not been revoked, modified, or amended in any manner that would cause the representations to be incorrect.

If the property is located in the following states, a trust certification is acceptable (The below does not represent the LSM approved states list. Please Refer to LSM Licensed States list):

| Alabama      | Arizona              | Arkansas     | California    | Washington |
|--------------|----------------------|--------------|---------------|------------|
| Delaware     | District of Columbia | Idaho        | lowa          | Wyoming    |
| Kansas       | Maine                | Michigan     | Minnesota     |            |
| Missouri     | Nebraska             | Nevada       | New Hampshire |            |
| New Mexico   | North Carolina       | Ohio         | Oregon        |            |
| Pennsylvania | South Carolina       | South Dakota | Tennessee     |            |
| Texas        | Utah                 | Vermont      | Virginia      |            |

#### 2.8 LEASEHOLD PROPERTIES

In areas where leasehold properties are commonly accepted and documented via the Appraisal, loans secured by leasehold properties are eligible. The mortgage must be secured by the property improvements and the borrower's leasehold interest in the land. The leasehold properties and any improvements must constitute real property, be subject to the mortgage lien, and be insured by the lender's title policy. Leasehold not available on condominiums.

Leaseholds must meet all Fannie Mae eligibility requirements (i.e. the term of the lease).

Reduced Fee Limitations: The Texas State Legislature has revised the Texas Home Equity Law. The Texas Constitution has reduced the fee limitation from 3% of the original principal amount of the loan to 2%, but exclude from the calculation of fees for an appraisal performed by a third party appraiser, fees incurred for a property survey performed by a state registered or licensed surveyor, and fees incurred for a state base premium for a loan policy of title insurance with endorsements established in accordance with state law or fees incurred for a title examination report if that cost is less than the state base premium for a loan policy of title insurance without endorsements established in accordance with state law. Refer to amended section 153.5 of Texas 50(a)(6) regulations.

## Non-Texas Section 50(a)(6) Loan

A seasoned Texas Section 50(a)(6) loan can be refinanced into a non-Texas Section 50(a)(6) loan if certain conditions are met. A Non-Texas Section 50(a)(6) loan is eligible for purchase provided the loan meets standard eligibility criteria and the requirements of the Texas Constitution, including:

- The refinanced loan is created at least one year after the initial Texas Equity 50(a)(6) loan was closed;
- The loan amount only covers the actual cost of the refinancing, and does not provide the borrower with additional funds;
- The LTV/CLTV does not exceed 80 percent of the fair market value;

In addition, when there is knowledge of an adverse event occurring near and around the subject property location, such as earthquakes, floods, tornadoes, or wildfires, additional due diligence should be used to determine if the disaster guidelines should be followed. Where this guidance is silent, please refer to the OCMBC Disaster Area Policy.

Guidelines for disaster areas should be followed for 90 days after the disaster period end date as published by FEMA.

#### 2.11.1 APPRAISALS COMPLETED ON OR BEFORE INCIDENT PERIOD END DATE

### 3.1.9 LEASE WITH OPTION TO BUY - OWNER OCCUPIED & SECOND HOME

Lease with Option to Buy (also called Lease Option or Lease Option to Purchase) is an agreement to lease a property for a specified period of time at an agreed-upon monthly rent payment, in which a portion of the payments, in excess of market rents, is applied toward the down payment. Once the potential buyer has satisfied the terms of the down payment, he/she may execute the option to purchase the property at the sales price agreed upon in the Leas Option to Purchase Agreement.

# **Lease Option Stipulations**

All Lease Option to Purchase transactions require all of the following:

- All parties to the transaction must execute the agreement
- The agreement must disclose the time period of the option to purchase, amount of earnest money deposit/down payment, and the terms of the monthly rental payments
- The terms of the monthly rental payments must include a specific and reasonable amount (dollar amount or percentage) in excess of the monthly rent payments that will be credited toward the down payment via comparison to fair market rents (Single Family Comparable Rent Schedule Fannie Mae Form 1007)
- Proof of the borrower's earnest money for down payment via a deposit (canceled check)
- Copy of canceled checks (front/back) for the monthly rent payment covering the most recent twelve (12) months

## **Lease Option LTV Calculation**

A Lease Option is always a purchase transaction; therefore, is required to issue a Purchase Loan Estimate (LE) and Closing Disclosure (CD) (versus the Refinance version of these disclosures). LoanStream will calculate a Lease Option LTV using the current reconciled market value in lieu of the purchase price.

- The value used for calculating LTV is the lesser of the Purchase Price or Appraised Value if:
  - o The borrower's Earnest Money Deposit (EMD) is less than three percent (3%) of the sales price, or
  - o The Lease Option Agreement was executed within the last twelve (12) months
- The value for determining the LTV is the current Reconciled Market Value if:
  - o The borrower has occupied the subject property for the last twelve (12) months; and
  - o The Lease Option Agreement was executed more than twelve (12) months ago; and
  - o The borrower has equal to or greater than three percent (3%) of the sales price invested by:
    - EMD/Down Payment, or
    - The borrower provided property improvements with receipts for materials as well as a detailed list of all such improvements and time to complete

## **Lease Option Restrictions**

Lease Option transactions that do not involve an EMD/Down Payment or property improvements including receipt(s) for materials and/or monthly rent in excess of proven market rents are not considered a Lease Option to Purchase and must comply with standard purchase transaction requirements.

Investment & Business Purpose Non-TRID Loans are ineligible.

### 3.1.10 DEPARTURE RESIDENCE

A departure property is defined as the owner-occupied residence the borrower resided in prior to the purchase of the current owner-occupied residence. Seventy-five percent (75%) of the market rents may be used to offset the PITIA or TIA (if the property is owned free and clear) payment of this property and is determined by form 1007 Market Rent Survey completed by a licensed appraiser. Surplus rents in excess of the PITIA or ITIA payment may be used as income.

One hundred percent (100%) of the rents may be used to offset the PITIA or TIA payment. Surplus rents in excess of the PITIA or TIA may be used as income. Actual rents are documented with both of the following:

- Copy of executed rental agreement; and

## 3.2.2 INTERESTED PARTY TRANSACTION

A Conflict-of-Interest Transaction occurs when the borrower has an affiliation or relationship with the Mortgage Broker, Loan Officer, Real Estate Broker or Agent, or any other interested party to the transaction.

In the case of the Mortgage Broker, Loan Officer, or Real Estate Broker/Agent extra due diligence must be exercised. For example the seller's real estate agent for the subject property may not act as the loan officer for the borrower(s) purchasing the same subject property. An examination of the relationship among the Mortgage Broker, Title/Escrow Companies, Appraiser and any other party to the transaction must be closely examined. A Letter of Explanation regarding the relationship between the parties may be required.

  - o Minimum of one (1) borrower with two (2) credit scores (all three (3) repositories must be attempted)
  - o Must use the lower of the two (2) credit scores or median of the three (3) credit scores generated unless one of the following occurs:

If all members have equal share of ownership, the lowest decision score among the members is used. All members must have a minimum credit score of 600.

For Frozen Credit, Refer to Fannie Mae Guidelines B3-5.1-01.

### 5.2 LOAN INTEGRITY & FRAUD CHECK

Data integrity is crucial to quality loan file delivery and mitigation of fraud risk. All loans should be submitted to an automated fraud and data check tool (i.e. Fraud Guard, DataVerify, etc.). A copy of the findings report should be provided in the loan file along with any documentation resolving any deficiencies or red flags noted.

## 5.3 CREDIT INQUIRIES

Any credit inquiries on the borrower's credit report in the last 90 days must have documentation signed by the borrower explaining the inquiry and attestation of no new credit was established. If new credit was established borrowers must provide documentation on the current balance and payment and qualify accordingly. It is recommended the underwriter do additional diligence as necessary to ensure there is no undisclosed debt.

#### 5.4 HOUSING HISTORY

Mortgage/rental history is required for most LSM programs. If a borrower's mortgage or rental history is not reported on the credit report, alternative documentation showing the most recent 12-month history (VORs and VOMs from servicing/mortgage companies and companies/management companies, etc., cancelled checks, mortgage/rental statements including payment history, etc.) should be provided. See matrix for LTV restrictions for accepting private party VORs. All loans held and/or serviced by the submitting broker, lender or banker that will be paid off through our transaction will require 12 months canceled checks. Bank statements in lieu of canceled checks may be allowed at the underwriter's discretion.

Borrower mortgage and/or rental history may reflect late payments based on Documentation Option and grade criteria, Refer to <u>LSM NanQ (Non-QM) Matrix</u> for requirements. All housing late payments must be cured at the time of application and remain paid as agreed through closing.

Housing late payments exceeding 1x60x24 require a letter of explanation from the borrower. The situation causing the delinquency must be adequately documented as resolved. The new housing payment must be considered when determining if the situation is adequately resolved.

Owner occupied properties: On owner occupied properties where the mortgage rating is in the name of the non-borrowing spouse and both are residing in the home together, the mortgage rating will be required and deemed acceptable for housing history requirements.

Second home and investment properties: Ratings in the name of non-borrowing spouse are not acceptable unless a joint account has been used to make the payments.

Borrowers who live rent-free are not allowed if the initial 1003 reflects any rent amount listed. Borrowers who cannot validate and verify that they live rent-free are not allowed.

Borrowers who can validate and verify that they live rent-free or borrowers without a complete 12 month housing history are allowed with the following restrictions:

The length of time is measured from the settlement date to the Note date. In the case of a foreclosure which was included in Bankruptcy, the seasoning timeline will start from the earlier of a) the date of discharge of bankruptcy and b) the foreclosure completion date. Re-established credit of at least 2 tradelines paid as agreed for 12 months is required or the foreclosure date will be used. Active foreclosures are not allowed.

If multiple Short Sales and/or Deed-In-Lieu exist in this time frame each must be addressed in the explanation. The length of time is measured from the settlement date to the Note date. For the Credit Grades of B, and C, where the housing event can be settled, the delinquency proceeding the housing event can be ignored.

In the case of a short sale/deed-in-lieu which was included in Bankruptcy, the seasoning timeline will start from the earlier of a) the date of discharge of bankruptcy and b) the short sale/deed-in-lieu completion date. Re-established credit of at least 2 tradelines paid as agreed for 12 months is required or the completion date will be used. Short Sale or Deed-In-Lieu currently in process are not allowed.

Refer to LSM NanQ (Non-QM) Matrix for grade specific restrictions.

## 5.9 FORBEARANCE OR MODIFICATION

Forbearance or loan modifications are treated as a short sale / deed-in-lieu for grading and pricing purposes. For the Credit Grades of B, and C, where the housing event can be settled, the delinquency proceeding the housing event can be ignored. Servicing retention related interest rate modifications are excluded from the seasoning requirement. A letter or explanation from the borrower addressing the situation that made forbearance or modification necessary must be provided. - When a borrower is obligated on a mortgage debt but is not the party who is actually repaying the debt, the lender may exclude the full monthly housing expense (PITIA) from the borrower's recurring monthly obligations if:
  - o the party making the payments is obligated on the mortgage debt,
  - o there are no delinquencies in the most recent 12 months, and
  - o the borrower is not using rental income from the applicable property to qualify
- In order to exclude non-mortgage or mortgage debts from the borrower's DTI ratio, the lender must obtain the most recent 12 months' canceled checks (or bank statements) from the other party making the payments that document a 12-month payment history with no delinquent payments
- When a borrower is obligated on a mortgage debt, regardless of whether or not the other party is making the monthly mortgage payments, the referenced property must be included in the count of financed properties (if applicable per Fannie Mae B2-2-03, Multiple Financed Properties for the Same Borrower
- Not applicable to DSCR Loans

#### 5.12 PAYMENT SHOCK

Payment shock should not exceed 300% of the borrower's current housing payment unless DTI is less than or equal to 45%. If payment shock exceeds this limit the underwriter must provide justification of borrower's ability to handle the increased payment. If the loan purpose is debt consolidation, and the net tangible benefit test is met, a payment shock calculation is not required. NOTE: Refer to additional payment shock restrictions in the First Time Homebuyers section of this guide.

Payment Shock = (Proposed Housing Payment / Present Housing Payment) \* 100 Borrowers living rent-free use \$1 for qualification.

## SECTION 7.0. ASSETS

THE FOLLOWING APPLY TO ALL TRANSACTIONS UNLESS OTHERWISE STATED.

#### 7.1 DOCUMENTATION OPTIONS

Various forms of documentation are acceptable depending on borrower asset type. Assets and reserves should be calculated and documented to Fannie Mae guidelines unless otherwise specified in LSM guidelines. Fannie Mae guidelines prevail where this guide is silent regarding sources and types of assets as well as asset types not eligible to be included.

### 7.2 RESERVES

- The minimum reserve requirements are outlined on the <u>LSM Product Matrix</u>
- Reserves must be sourced and documented per section 7.5 of these guidelines
- Additional Reserves Each financed property in addition to the subject property, will increase the applicable reserve requirement by two (2) months PITIA on the subject property to a maximum requirement of 12 months (Additional reserves based upon the PITIA of the subject property); On all income documentation loans, full doc and bank statements, when reserves are required. - Proceeds from a cash out refinance can be used to meet the reserve requirements

## • Owner Occupied & Second Home ONLY:

- o Reserve requirements are waived for Rate-and-Term Refinance transactions when the transaction results in a reduction to the monthly principal and interest payment of 5% or greater AND housing history is 1x30x12 or better (no housing history, unless the property is free and clear, is not allowed); waiver not eligible for DTI greater than 50%
- o For an interest only loan the reserves are based on the interest only payment
- Proceeds from 1031 Exchange cannot be used to meet reserve requirements
- Gift funds may NOT be used to meet reserves requirements

#### 7.3 DOWN PAYMENT SOURCING

Down payment funds should be documented for 60 days per the Fannie Mae Verification of Deposits and Assets guidelines with the documentation included in the loan file. LSM will require that the borrower state the source of the down payment and provide verification. If the underwriter determines that the source of the down payment is another extension of secured

credit, the underwriter must then consider that loan as simultaneous secondary financing. Refer to the Secondary Financing" section.

# 7.4 GIFT FUNDS/GIFT OF EQUITY

- When gift funds or gift of equity are used for all or part of the down payment, they are acceptable in either scenario:
  - o 100% of gift funds with 10% LTV reduction, or
  - o 5% down payment has been made by the borrower from their own resources
- Gift funds are not eligible under Asset Utilization and DSCR 5-8 Unit Residential program
- Fannie Mae guidelines are to be followed for acceptable donors and documentation requirements included verifying donor availability of funds and transfer of gift funds, refer to B3-4.3-04, Personal Gifts
- Gift funds may NOT be used to meet reserve requirements
- When a gift from a non-borrowing spouse or registered domestic partner is being combined with the borrower's funds to meet the required minimum cash down payment, the funds are not considered a gift when all the following items are provided:
  - o Certification from the non-borrowing spouse or registered domestic partner stating that he/she has lived with the borrower for the past 12 months and will continue to do so
  - o Documentation evidencing a history of shared residency. The spouse's address must be the same as the borrower's address. Examples include but are not limited to a current utility bill or bank statement.
  - o If funds are held in a separate asset account, asset statements covering the most recent 60 day period, (30 day period for DSCR loans) are to be provided and must adhere to the asset guidelines

### 7.5 ASSET DOCUMENTATION

In addition to documenting the minimum reserve requirements, all borrowers must disclose, and Underwriters must verify all other liquid assets.

### 7.5.1 DOCUMENTATION REQUIREMENTS

- Account Statements should cover most recent 60-day period
- If account has other names in addition to the borrower(s), a 100% access letter and an LOE is required (this pertains to personal and business accounts; if a borrower owns a business 100%, no access letter is required, even if there are other names on the business account)
- Investments in Stocks/Bonds/Mutual Funds/Annuities/ certificates of deposit/money market funds/ and Trust Accounts for which the borrower is a direct beneficiary 100% of these accounts can be considered in the calculation of assets for closing and reserves

## An example of how to identify a large deposit:

- o Month 1 deposits
  - **\$1,000**

- **\$1,500**
- o Month 2 deposits
  - **\$2,500**
  - **\$5,000**
- o Total deposits equal \$10,000 or a monthly average of \$5,000
- o 75% of the monthly average is \$3,750
- o The \$5,000 deposit from month 2 needs to be sourced

Assets held in foreign accounts may be used as a source of funds to close and to meet applicable reserve requirements. These funds must be transferred to a U.S. domiciled account in the borrower's name at least three (3) days prior to closing.

- Documenting Assets Held in Foreign Accounts:
  - o Assets must be verified in U.S. Dollar equivalency at the current exchange rate via either www.xe.com or the Wall Street Journal conversion table

  - Full Income Documentation (May use one of the following methods)
    - LSM must perform a business cash flow analysis to confirm that the withdrawal of funds for this transaction will not have a negative impact on the business; LSM will utilize Fannie Mae Form 1084 or a similar cash flow analysis form to show the business can support the withdrawal of the funds, or
    - The balance sheet (borrower or tax professional/CPA/Accounting-Bookkeeping Firm supervised by a Certified Accountant prepared) for the business must reflect positive working capital, OR
      - Working capital is the difference between the current assets and current liabilities
      - The result of working capital represents the maximum amount of business funds available to use towards down payment, closing cost and reserves, or
    - CPA/Tax Professional/Accounting-Bookkeeping Firm supervised by a Certified Accountant Letter, signed and dated within 60 days of Note date, stating that the use of business funds would not have a negative impact on the business

### 8.6.2 ALT DOC - RENTAL INCOME

When rental income is the borrower's secondary or supplemental source of income, the following may be used to calculate income.

<sup>\*</sup> For Part-time employment, a minimum two (2) year history is generally required; however, a shorter period of no less than twelve (12) months may be considered case-by-case if positive factors are present to offset shorter history.

## • Long Term Rentals:

- o Schedule of Real Estate owned (URLA) must be completed for all investment properties where the borrower is held personally liable. PITIA/TIA will be included in the DTI calculation. Fully executed lease/rental agreements for all properties required.
- o 75% of the lease/rental amounts will be used.
- o The most recent two months' rent must be verified and documented as received in the most recent two months before closing
- o If the subject property is an investment purchase, rental income from the subject property is determined as follows:
  - 75% of the current lease/rental amount
  - If there not an assignment of lease, 75% of market rent to be used
- o ADU income can be used to qualify on alternative doc income loan similar to the way the other investment property income is calculated
  - Purchase Transaction Not available, except when assignable via the purchase contract and verified
  - Refinance Transaction Only available with executed lease agreement and 2 months verifiable rent received

#### • Short Term Rentals:

- o 12 months statements or an annual statement provided by the on-line service provider such as Airbnb, VRBO, etc., evidencing rents received for the property to be provided. If more than one rental property is owned, the statements must clearly identify the rents received for each specific property.
- o A screen shot of the online listing(s) evidencing the property is actively marketed as a short term rental to be provided
- o Gross monthly rents are based on a 12 month average to account for seasonality
- o The actual extraordinary costs (i.e. management fees, advertising, furnishing, cleaning) listed on the 3<sup>rd</sup> party statements or a 20% extraordinary expense factor, if actual is not provided, must be subtracted from the gross rents

# 8.6.3 ALT DOC - 12-MONTHS BANK STATEMENTS

The Self-Employed Bank Statements program is available to self-employed borrowers only and allows the use of bank statements to document self-employment income. Income documented through the Self-Employed Bank Statement method may be combined with other income sources that are documented as Full Doc but not associated with self-employment, such as a spouse employed as a wage earner or a borrower with previous year working as W-2 employee. When wage income is combined with Self-Employed Bank Statements, a tax return is not required for the full income documentation, as this would invalidate the bank statements if received for the same tax year. The 4506-C is still required, however, box 8 should be checked to obtain a transcript of W-2 earnings. If tax returns and/or transcripts are provided, the loan will be ineligible for the Self-Employed Bank Statement Program.

#### 8.6.3.1 BANK STATEMENT DOCUMENTATION

- At least one of the borrowers must be self-employed
- Other name(s) on bank statements used to qualify:
  - o Direct relative(s) only (Refer to Fannie Mae guide); LOE required
  - o 100% access letter
  - o Any deposits in the name of the other parties, are excluded

### 8.6.3.2 INCOME ANALYSIS

# **Self-employed Borrowers**

A borrower with a 25% or greater ownership interest in a business is considered self-employed and must be evaluated as a self-employed borrower. Net income from the analysis of the bank statements must be multiplied by the borrower's ownership percentage to determine the borrower's qualifying income.

Verify the existence of the business, within 60-days of the Note date, to ensure the business is active with the following; a letter from either the business tax professional certifying two years of self-employment in the same business, or regulatory agency or licensing Bureau reflecting license is still active and not expired; or an internet search that verifies business' phone number or address or for self-employed independent contractors a letter from third party company currently utilizing their service(s).

**NOTE:** Businesses that function as non-profit enterprises are ineligible for self-employment treatment.

### Service & Tip Industry

Due to the cash nature of the service and tip industry, those borrowers may participate in the bank statement program. Full documentation is required for employment. Base salary is verified with pay stubs and W2s. Qualified tips are averaged over time. Utilize the bank statement analysis to determine tip income.

Borrowers who obtain their income primarily in the form of service fees or tips (adult entertainer, musician, club hostess, etc.) are not required to have a business license. At least one business reference letter is required to validate employment. Deposits will be used to calculate income. P&L or expense factor letter not required if the borrower provides personal bank statements.

### Rental Property Income (12 Month Bank Statements)

When Rental Income is the Borrower's primary income source, bank statements may be used to calculate income when meeting all the following:

- Borrower must attest rental income is the only line of revenue and rental income is deposited into one or more bank accounts
- Long Term Rentals:
  - o 12 months bank statements evidencing receipt of rental income into borrower's co-mingled or business bank account required. Deposits must support the lease/rental amounts. Only rental income deposits will be used.

- o Schedule of Real Estate owned (URLA) must be completed for all investment properties where the borrower is held personally liable. PITIA/TIA will be included in the DTI calculation.
- o Fully executed lease/rental agreements for all properties required. 75% of the lease/rental amounts will be used.
- Short Term Rentals:
  - o 12 months statements or an annual statement provided by the on-line service provider such as Airbnb, VRBO, etc., evidencing rents received for the property to be provided. If more than one rental property is owned, the statements must clearly identify the rents received for each specific property.
  - o A screen shot of the online listing(s) evidencing the property is actively marketed as a short term rental to be provided
  - o Gross monthly rents are based on a 12 month average to account for seasonality
  - o The actual extraordinary costs (i.e. management fees, advertising, furnishing, cleaning) listed on the 3<sup>rd</sup> party statements or a 20% extraordinary expense factor, if actual is not provided, must be subtracted from the gross rents If the above documentation is provided, the income calculation will NOT follow the standard bank statement income calculation listed in the bank statement section

### 8.6.3.3 PERSONAL BANK STATEMENTS

- Income is calculated based on a 12-month average, or 24 month average of total deposits minus any inconsistent deposits not justified
- Pattern of deposits and payments should be consistent, as determined by the type of business
  - o For example, a Real Estate Sales self-employed borrower may not have sold a property every month, so consistent would be deposits made a few times in a 12 or 24 month period
- ATM deposits/PayPal or similar deposits may be included if a consistent pattern of such deposits is present
- Changes in deposit pattern must be scrutinized
- Income documented separately but comingled must be backed out of deposits
- Two months most recent business bank statements
  - o Must evidence activity to support business operations, and
  - o May reflect transfers to the personal account

If the personal bank statements include names of individuals other than the borrower(s), the following is required:

- 100% Access Letter from individual(s) whose names appear on personal bank statements
- LOE from individuals explaining the relationship with the borrower(s), whether they are employed or not, whether they are associated with the business, and whether they contribute income to the bank account
- Business License and the most recent company formation information for LLC, Corp, or S-Corp

The underwriter will review the documentation provided. If the individual(s) work for the company and/or are part owners of the company, they must be on the loan for the income to be used. If the individual(s) work elsewhere but earn income provided in the statements, they must also be on the loan for the income to be used. Otherwise, whatever percentage is owned by the borrower(s) will be used for qualification.

# 8.6.3.4 BUSINESS AND COMINGLED BANK STATEMENTS - FIXED EXPENSE FACTOR

Underwriter will evaluate the type of borrower/business using the <u>Fixed Expense Factor Table</u> below, applied to business related deposits. The expense factor will be determined via review of the completed business narrative (Refer to EXHIBIT I, Self-Employment Business Narrative, Questionnaire, and Certification) or any other borrower business narrative. If the expense factor allows the borrower to qualify, then no further expense analysis is required.

1. Determine the Gross Monthly Qualifying Income

Total Allowable Monthly Deposits = Net Qualifying Deposits ÷ 12 (or 24) Months

2. Determine the Business Net Income.

Gross Monthly Qualifying Income X (100% - Fixed Expense Ratio) (from table below)

| FIXED EXPENSE FACTOR TABLE                |     |      |     |
|---|-----|------|-----|
| Number of Full-time Employees/Contractors | 0—1 | 2—10 | 10+ |
| Service Business *                        | 30% | 50%  | 60% |
| Product Business **                       | 40% | 60%  | 70% |
| Real Estate Business***                   | 70% | 75%  | 80% |

<sup>\*</sup>Service Business examples: Accounting, Consulting, Counseling, Financial Planning, Insurance, Law, Therapy, etc.

3. Determine the Borrower's Monthly Qualifying Income

# Business Net Income X Borrower's Percentage of Ownership in the Business

If the type of business may have a materially different expense factor per the lender or borrower, two rebuttal options are listed below. Should the Underwriter uncover any red flags that require further review, the Underwriter may request additional documentation.

## Rebuttal Option 1: Business Expense Statement Letter:

Provide a Business Expense Statement Letter from a Tax Professional or a Properly Licensed Accounting/Bookkeeping Firm supervised by a Certified Accountant with 12 Months Bank Statements (or 24 Months Bank Statements when required).

- Net Income is determined by total deposits per bank statements, less total expenses
- Total expenses are calculated by multiplying total deposits by the expense factor provided by a CPA, Tax Preparer, or a properly licensed Accounting/Bookkeeping Firm supervised by a Certified Accountant
- Any expense factor lower than 15% will require a basic understanding of the borrower's business by a tax professional, which supports the expense factor noted, along with a borrower business narrative
  - o The business narrative provided by the borrower should be reviewed to determine if the business provides a service or produces/manufactures goods
  - o If the business has a website, it should be reviewed to gain additional information on the business and its size
- The Underwriter's review of the narrative should conclude that the expense factor is reasonable based on the information provided
- Qualifying income is the net income from the analysis

## Rebuttal Option 2: 12-Month Profit and Loss Statement:

Provide a 12-Month Profit and Loss (P&L) Statement (24-Month if required by the Underwriter) from a Tax Professional or a Properly Licensed Accounting/Bookkeeping Firm supervised by a Certified Accountant.

• P&L Sales/Revenue must be supported by the provided bank statements, total deposits per bank statements, minus any inconsistent deposits, and must be no more than 10% below revenue reflected on the P&L

<sup>\*\*</sup>Product Business examples: Clothing/Jewelry, Construction, Food Service/Restaurant, Manufacturing, Retail, Trucking, etc.

<sup>\*\*\*</sup>Real Estate Investors, (without a schedule of current real estate), Property Developers and Property Flippers, CPA letters will not be accepted for a lower expense ratio

- The bank statements and the P&L must cover the same time period
- Qualifying income is the net income indicated on the P&L
- Additional Bank Statements or Expense Analysis documents may be requested as needed

## 8.6.3.5 NON/IN-SUFFICIENT FUNDS (NSF)/OVERDRAFTS ≥ 12 MONTH BANK STATEMENT ONLY

Non-sufficient funds (NSF) or negative balance(s) reflected on the bank statement must be considered. Overdraft protection fees associated with pre-arranged link to a savings account or line of credit must also be considered unless one of the following conditions exist:

## Overdraft Protection (From a Depository Account of Line of Credit)

- A distinction is made between overdrafts (e.g., "Sweep" accounts) and NSFs, whereas certain overdrafts are covered by the borrower's own funds
  - o Occurrences may be excluded if statements for the linked account confirm that:
    - The linked account balance/limit at the time of the transfer exceeded the amount of the overdraft transfer; and
    - There were no fees charged for the overdraft

### **Returned Checks**

• Returned checks are considered separately; returned checks that do not result in a negative balance are not considered NSFs

# NSF (Non-Sufficient Funds)

- NSFs occur when charges or checks exceed the available balance in an account, and there is not sufficient overdraft protection in place
  - o NSF activity within the last 12 months (or 24, if required; depending on the program) requires a satisfactory explanation from the borrower
  - o Any occurrence that happens on the same day is counted as a one-time occurrence
  - o Multiple NSFs are viewed adversely and may affect qualification, especially at higher LTVs
  - o Excessive NSFs will be highly scrutinized and may cause the loan to be deemed ineligible
    - Up to 12 occurrences in the most 12 months' time period is acceptable. Any occurrence in the most recent 90 days should be scrutinized by the underwriter. Any occurrence that happens on the same day is counted as one-time occurrence. For example, if there are multiple NSFs or overdrafts on one day, it will only count as 1 in the tolerance levels.
    - Any tolerance violations must be second signed and must include (a) a letter of explanation from the borrower outlining the reason for the occurrences and an explanation of how and when the issue leading to the occurrences was rectified, and (b) additional compensating factors outlined by underwriter supporting the viability of income.
- Underwriter may consider the financial strength of a self-employed borrower's business and the bank statement trends
  - o Ending balances should show a trend that is stable or increasing
  - o Low ending balances must be explained and could require additional documentation

Additional Bank Statements or Expense Analysis documents may be requested by the Underwriter as needed.

#### 8.6.4 ALT DOC - PROFIT AND LOSS STATEMENT PLUS 3 MONTHS BANK STATEMENTS

Provide a 12-Month Profit and Loss (P&L) Statement from a CPA, Enrolled Agent, or Properly Licensed Accounting/Bookkeeping Firm supervised by a Certified Accountant with 3 Months Bank Statements (or more when provided or requested by an Underwriter). Proof of the preparer's current state license is required. If tax returns and/or transcripts are provided, the loan will be ineligible.

- NSF's/Overdrafts not allowed
- P&L Sales/Revenue must be supported by the provided bank statements, total deposits per bank statements, minus any inconsistent deposits, and must be no more than 10% below revenue reflected on the P&L
  - o If this 10% tolerance is not met, continuous bank statements may be added to the analysis until the tolerance is met
- Qualifying income is the net income from the P&L divided by the number of months it covers (12, or 24 if requested by Underwriter
- Expenses must be reasonable for the type of business
- Pattern of deposits and payment should be consistent., determined by type of business:
  - o For example: A Real Estate Sales self-employed borrower may not have sold a property every month, so consistent would be if deposits were made a few times in 12 months (or 24 months if requested by the Underwriter)
  - o Other examples include but are not limited to: A Convenience Store owner, Gas Station owner, or Restaurant owner may make large amounts of cash deposits; if deposits are ordinary for the type of business, they will not be backed out of the deposit calculations and sourcing is not required
- ATM/PayPal/Square/Venmo deposits may be considered and analyzed for consistency
- Income documented separately but comingled must be backed out of deposits

Additional Bank Statements or Expense Analysis documents may be requested by the Underwriter as needed.

#### 8.6.5 ALT DOC - ONE YEAR SELF-EMPLOYED

Borrower must be self-employed for a minimum of 12 months, which follows a full year of W-2 employment in the same profession. Furthermore, the borrower's self-employment income must be earned from a field/line of work that provides the same products or services as the previous W-2 position or in an occupation in which he or she has similar responsibilities to those undertaken in connection with the previous business. The borrower must be the sole owner of the business.

The most recent 12 months of self-employment income via bank statements must show a topline revenue (via deposits) greater than or equal to their previous year's W-2 earnings to be considered. Up to a 10% variance in income will be allowed if the borrower's DTI is less than or equal to 45%.

## <u>Income</u>

- Two years income required
  - o Most recent 12 months consisting of 12 months of bank statements (following LSM Alt-Doc guidelines for income calculation)
  - o Previous full year W-2 with 4506-C verification (W-2 transcript only)
    - Verification only required for year of W-2 employment, not year of self-employment
    - If borrower's last W-2 year is not a full year of income, a previous full year of W-2 income must be provided and evaluated

- o Any of the following documents can be used to prove self-employment and a full 12 months of activity:
  - Business License
  - Articles of Incorporation
  - Underwriter Internet Search
  - CPA Letter

#### Credit

#### Reserves, DTI, Residual Income

Reserves, DTI, and residual income, including any other limiting factor will follow the matrix for Alt Doc income.

#### 8.6.7 ALT DOC - 1099 ONLY PROGRAM

Where 1099 is the only source of income/employment for an individual borrower and the borrower has been in the same profession or job and received 1099 income for at least two years, 1099(s) only can be used subject to the following restrictions:

- Refer to LSM NanO (Non-OM) Matrix for FICO, Grades, LTVs, and all other restrictions
- Borrower must be employed with the same employer(s) for at least 12 months
- The individual borrower's name must be listed as the "Recipient Name" on the 1099(s), businesses listed as the recipient on the 1099(s) are ineligible
- Borrower cannot have any ownership percentage in the business from which 1099 income was received

- Two most recent personal or business bank statements required to support the 1099 reported income
- Borrower prepared, CPA prepared or Tax Professional P&L with business narrative required or CPA, CTEC, PTIN or EA Expense factor letter is acceptable

Income calculations based on NOI from P&L or Expense Factor Letter supported by two most recent bank statements that support the same level of income.

Example 1: 2 years 1099's show \$300,000 in income, P&L shows NOI of \$200,000 for two-year period.

\$200,000 / 24 months = \$8,333,33 in monthly income

**Example 2:** 2 years 1099's show \$300,000 in income, Expense Factor shows 15% expense factor as an independent contractor.

\$300,000 X 85% = \$255,000 in Net Income / 24 Mo. = \$10,625 in monthly income

The 2 most recent bank statements support the monthly income calculations. If the amount is less than calculated the borrower may provide additional bank statements to support the average income. 10% variance is allowed.

#### 8.6.8 ALT DOC - ASSET UTILIZATION

The Asset Utilization loan program is an option for an underwriter to use a Borrower's liquid assets to augment income for loan and product qualification purposes or to qualify entirely.

Three (3) most recent months of asset statements with all pages included are required for Asset Utilization calculation as well as verifying cash to close and reserves.

#### 8.6.8.2 RESTRICTIONS

- Gift funds are not allowed, including when using as blended income
- Refer to LSM NanO (Non-OM) Matrix for FICO, Grades, LTVs, and all other restrictions.

### 8.6.8.3 ASSET UTILIZATION QUALIFYING METHODS AND PROGRAM RESTRICTIONS

Asset Utilization is a calculation used to generate monthly income from a borrower's personal assets. Assets can be used for all income, or blended income.

#### Asset Utilization for Use as Income (DTI)

#### Asset Utilization for Use with Blended Income

- o The borrower may supplement full-doc or self-employment income with Asset Utilization
- o It can be combined with other income such as W-2, Self-employment, 12 months Bank Statement, Social Security, Pension, or other investment income
- o There is no age restriction

#### Asset Utilization for Use as 100% of the Income

- o The borrower can use the calculated income from assets to cover the calculated monthly debt ratio
- o Employment information is not required

#### CALCULATION

Asset Utilization Calculation Policy (for use with Blended Income or 100 % Income qualification):

- Income listed in the employment section on the URLA will not be considered as the sole income calculation
- Qualifying asset monthly income is the total balance of assets eligible minus all funds used for down payment, closing costs and reserves divided by 60 months irrespective of the amortized term of the loan
- Example of Asset Income for a 30-Year loan:
  - o Savings Account balance is \$100,000 (\$100,000 usable toward the calculation)
  - o Stock Fund Balance is \$100,000 (\$90,000 usable toward the calculation)
  - o Mutual Fund Balance is \$10,000 (\$9,000 usable toward the calculation)
  - o Total usable is \$199,000 ÷ 60 = \$3,316.66 monthly income

# Asset Utilization without DTI (Residual Assets Method):

For the Residual Assets Method, a debt ratio calculation is not required when Asset Utilization can cover the new subject property debt, all costs, reserves, and all other reported debt on the credit report. A calculated Residual assets amount is required.

#### CALCULATION

Asset Utilization Calculation Policy (for use with 100 % Coverage):

- Eligible assets available before closing must be sufficient to cover <u>all</u> of the following:
  - o The new loan amount
  - o The down payment
  - o Closing costs
  - o Any required reserves, per program requirements
  - o Five years (60 months) of all other current monthly obligations
  - o Five years of taxes and insurance

Sufficient liquid assets to pay off the loan in full would be considered fulfilling the DTI / Residual income prong of the ATR test.

## 8.6.8.4 ASSET UTILIZATION ELIGIBILITY

### **Eligibility Requirements (Asset Amortization)**

- Available for Primary Residence, Second Homes, and Investment Property (N/O/O)

For most asset types, this would include all pages of the most recent three (3) months. Asset levels in the verified accounts are expected to be consistent and sustained over the three (3) month period. Increases or decreases of greater than 15% over the three (3) month period (i.e., compare month 1 to month 3) must be explained by the borrower. Additional supporting documentation may be required. Large month-to-month changes in asset totals during the three (3) month period may require additional explanation and documentation.

### Assets Eligible for Utilization

Assets must be liquid and available with no penalty; additional documentation may be requested to validate the origin of the wealth.

Considered assets must be comprised of the following readily marketable assets, which must be available to the borrower with no penalty and are limited as follows (after deduction of any funds used for down payment, closing costs, or reserves):

- Refer to LSM NanO (Non-OM) Matrix for FICO, Loan Amounts, LTVs, and all other restrictions.

#### 8.7.1 DSCR CALCULATION

- DSCR is calculated by gross rents divided by qualifying PITIA or ITIA
  - o 100% of the rents can be used, and no vacancy factor is required
  - o Refer to matrix for current DSCR ratios allowed
    - EXAMPLE Debt Service Coverage Ratio (DSCR):

Single-family Purchase Money Transaction

Monthly PITIA = \$650

Estimated Monthly Market Rent (from Form 1007) = \$850

Existing Lease Monthly Rent = Not Available

Gross Market Rent = \$850 (Estimated Monthly Market Rent when a lease is not available for Purchase transaction)

#### **RATIO CALCULATION:**

Gross Income ÷ PITIA = DSCR (Ratio)

RATIO:  $$850 \div $650 = 1.30$ 

#### 8.7.2 EXPERIENCED INVESTOR

  - o Borrower(s) with history of owning and managing non-owner occupied income-producing investment real estate for at least 1 year within the last 3 years
